

XXXI EUPROMETA School

Nanophotonics and Metamaterials

21-24 June 2016, St. Petersburg, Russia

The XXXI Edition of the Distributed Doctoral School on Metamaterials will be held on **June 21-24**, 2016 in St. Petersburg, Russia. The school, co-organized by the ITMO University and METAMORPHOSE VI AISBL, will be focused on **Nanophotonics and Metamaterials**. The school covers the broad range of topics including:

- Photonics
- Microwave and Optical Metamaterials
- Plasmonics
- Topological Insulators
- Nanoengineering
- THz Technologies
- Imaging and Sensing

Lecturers:

- Prof. Shanhui Fan (Stanford University, USA)
- Prof. Mathias Fink (Institut Langevin, France)
- Prof. Boris Chichkov (Laser Zentrum Hannover E.V., Germany)
- Prof. Constantin Simovski (Aalto University, Finland)
- Dr. Pavel Ginzburg (Tel Aviv University, Israel)
- Dr. Ilya Shadrivov (Australian National University)
- Prof. Didier Felbacq (University of Montpellier, France)
- Prof. Alexander Khanikaev (Queens College, USA)
- Prof. Andrei Lavrinenko (Technical University, Denmark)
- Dr. Mikhail Lapine (University of Technology Sydney, Australia)
- Dr. Andrey Novitsky (Belarusian State University, Belarus)
- Dr. Oleg Mitrofanov (University College London, UK)

Registration deadline is May 30

Venue

The school will be held in St. Petersburg city, in the beautiful historical palace - House of Eliseevs

Fees

Participation cost starting from 5000 rubles covers tuition, lecture materials, transfers and social program

Please register before **May 30** at the School website

Credits

Upon successful school completion each participant will be awarded with a 3 credit points
